THE WHITECHAPEL MURDER

" Sir CHARLES WARREN, the booby Chief of the booby London Police, after examining the body of the last so-called "Whitechapel" victim, expresses the opinion that London is the safest city in the world to live in.

In one respect this is true. London is the safest city in the world for murderers to live in, and will so continue as long as the police is as worthless as it is, and has such a wooden head as Sir CHARLES WARREN.

One thing the London authorities, inefficient as they are, ought to guard against. The last atrocity differs from the former crimes, inasmuch as the murder was com in the woman's apartment instead the streets. The deceased had married and was separated her husband on account of dissolute habits. She had been living with a man of disreputable character. Here are reasons enough for a murder, outside of the supposed lunatic's acts. What more probable than that this crime may have been committed by a same person, through jealousy or revenge, and the mutilation of the body and the writing on the wall resorted to as a shrewd device to direct suspicion to the "Whitechapel fiend" and cover the tracks of the real murderer ?

If the London police have any sense they will test this plausible theory.

THE DEATH ON THE BAIL.

The accident on the Second Avenue Ele vated Bailroad train ought to be thoroughly investigated. It is not wise on the part of the management of the Elevated Railto seek to prevent the of the gateman of the car which Mr. BARR sought to board, and to obstruct the police in their search for the man. Indeed, the disappearance of the gateman is very injudicious, as it implies a consciousness of wrong.

Beyond question Mr. BAER was himself to force his way on the car after the gates

to force his way on the car after the gates were closed. But it seems astonishing that the guard should not have sought to open the gate and save the rash young man's life, when he saw that it was impossible for him to escape otherwise.

The rule of the company which forbids any opening of the gate of a car when it has once been closed is a good one, and necessary to prevent accidents. But the employees of the road ought to be given to understand that this rule may be relaxed when human life is endangered by its strict observance. The gateman seems to have thought more of saving his place than of the force of the gateman seems to have thought more of saving his place than of the force of saving his place of them, and when they rome have a gay time. If this is made clear it will point out to the management the expediency of giving such instruction to the employees of the road as will prevent the recurrence of such a calamity.

ANNA AND HIGH JINKS.

Miss Anna Dickinson, who sues the Republican National Committee for \$1, 250. a balance due her on a contract for services in the campaign, tells a WORLD reporter that the money is justly her due and she intends to get it if there is any justice in law and any law to compel justice.

Miss Dickinson was asked whether there is any truth in the report that she was really promised an extra \$5,000 by the National Committee in the event of Harrison's election. But ANNA sadly denied the story, and turning to a lady friend who was present at the interview, remarked, "If it were \$5,000, dear, wouldn't we just have high jinks?"

Now, if the National Committee should give Miss Drokenson \$5,000 it would be no more than she deserves, and they can well afford it. Here is Chairman Quay boasting. it is said, that he has won \$100,000 on the election. All the committeemen are alleged to have increased their bank accounts, and it is asserted that the money put up would not have been a serious deprivation to them if their bets had been lost. Surely they can well afford to give ARRA \$5,000. She did more real work than any of mitteeman did in the campaign, and her "high jinks" would be of a much more rest character than most of them will

But Now That Gen. Harrison Is Elected, Why Not Help Him?

Suppose We Proceed to Form an "Evening World" Cabinet.

And Then, of Course, Transmit the List of the Favorites to Gen. Harrison Himself,

Even if the Republicans have elected their President, why should they be the only ones to have a say about the next Cabinet? This is a great cou try and the Cabinet is intended for everybody. Why not lend a hand and show Fresident-elect Harrison that Democrats as well as Republicans

are kindly disposed. The idea is to form an Evening World Cabinet for his consideration. Checky? do you say, my Republican friend? Oh! not at all. Patriotic interest pure and simple, and a wish to help along Governmental affairs.

Besides, THE EVENING WORLD fevolves for all. Therefore, it will now proceed to receive from ts readers suggestions and recommendatious as to the make-up of the next Cabinet.

Every reader who likes the idea may recommend one or more members of the Cabinet, stating briefly and brightly the reasons for his recommendations. It will also be allowable, in forming THE EVENING WORLD Cabinet, to oppose any gentleman for any particular portfolio. The reasons for this opposition must also be stated neatly and succinctly. Don't write long letters. Ther're tedious. We will print the most interest to communications slightly tinged with humor. Of course we shall expect to hear from both Republicans and Democrats. This will be the easless way for everybody to make known their preference to President-elect Harrison. Whatever the source or nature of the recommendations, they

MEAN. BENJAMIN HARRISON. THAT GREAT BIG

A SKETCH OF THE PRESIDENT-ELECT.

CHAPTER I.

HIS BOYHOOD, HIS STUDENT LIFE, HIS COURT-

SHIP AND MARRIAGE. [Written expressly for " The Evening World,"]

Benjamin Harrison's boyhood was spent at the home of his grandfather at North Bend, O. Until he entered Farmer's College, near Cincinnati, when he was fifteen years old, he had never travelled far from home, and was brought up on the old farm at North Bend an out-and-out country boy in every respect.

One of the earliest incidents related of him is in connection with the election of his grandfather, Gen. William Henry Harrison, to the Presidency after the famous hardcider and log-cabin campaign of 1840. Shortly after his election Gen. Harrison made a trip to Cincinnati and took his seven-year-old grandson with him.

On the morning after their arrival Bennie went out to take a walk with his grandfather; and one of the first objects that attracted his attention was a fruit stand kept by an old Irishwoman in front of the hotel, loaded down with big red apples. The boy ran up to the stand and began to fill his pockets, and, to the utter amazement of the proprietress, was off with the booty before shad any chance to interfere with this high-handed proceeding.

Apples were plenty at North Bend, and as no one ever thought of paying for a pocket-ful there young Ben was greatly surprised when he found that the President elect was obliged to apologize for his grandson's mis-take to the old woman and shell out a good round sum for the apples which he had ap-

Harrison began his education at the old log school-house at North Bend. The cabin was one of the very plainest of buildings of that sort. The teachers, it is said, were sometimes men and sometimes women, and they were not employed all the year round. School began usually immediately after harvest in the Fall, and closed as soon as the Spring farming began, for in those days on the frontier even the children had their duties to

perform, and their services were indispensa-ble in the farm work.

Harrison used to feed the cattle and do the milking, although he has since confessed that in the latter labor he was never much of a

in the latter labor he was never much of a success.

The rivers flowing close by the farms were in that day well stocked with fish; there were squirrels in the woods, and in their season ducks were plentiful. In the pursuit of such game Young Harrison became an expert shot, especially with the rifle. Very frequently he assisted the negro cook, carried wood and water for him, and helped him wash the dishes in order to secure his company in a fishing or hunting excursion.

During this period of his life the influence of the home circle was powerful in forming his character. Hs mother was a fervent Presbyterian, and always looked carefully after the religious training of her family. She kept her children about her, and among the pleasantest recollections of the early life of the President-elect are the long Winter evenings which were spent in the company of his parents and his brothers around the big dining-room in front of the great big roaring fire-place.

After he had learned all that the teachers in the log cabin school-house could teach him, the lad's education in the more advanced branches of learning was undertaken by his father. He pursued his standay with much

He studied hard and took high honors. From this institution he went to Miami University, entering in the junior class. There he was thrown among a different class of associates, and soon after he had made acquaintances he began to lose to a certain degree the austerity of his manner, and eventually went in heart and soul for all sorts of social enjoyments.

ually went in heart and soul for all sorts of social enjoyments.

Far from ascetically devoting himself to literary pursuits it is recorded of him, that he became diligent in seeking partners for concerts, picnics, lectures and parties. He was especially devoted to Miss Caroline Scott, daughter of the President of the Young Ladies' Academy, and when after a season's routs and parties he suddenly forsock that sort of dissipation and became one more a slave to his books, everybody wondered what was the matter until they found out that he had become engaged to Miss Scott, whom he afterwards married.

This is the earliest romance of Mr. Harri-This is the earliest romance of Mr. Harrison's life, it is said, and the only one. He pursued his studies with such diligence during the remainder of his college course that he took high honors at graduation and was one of the Commencement speakers. He had always been one of the orators of his class, and the subject of his speech on that occasion was "The Poor of England."

His boyhood ceased at this point, for he was soon afterwards married and with his young wife went to indianapolis to establish himself in the practice of the law.

Gen. Lew Wallace describes him at that period as small in stature, of slender physique and what might be called a blonde. His eyes were gray, tinged with blue; his hair was light, reminding one of what in ancient days along the Wabash was more truly than poetically described as a "tow-head." He was plainly dressed, and in that respect gave tokens of indifference to the canons of fashion. He was modest in manner, even diffident; but he had a pleasant voice and look, and did not lack for words to express himself."

I would assist the College of Pharmacy of the city of New York to build an edifice large enough to give all the necessary knowledge to the students, so as to have them thorough te as we need pharmacists, as we need them badly. We find in New York City many so-called drug stores where the proprietor himself is not a pharmacist, but has a registered clerk, and through that mask practices pharmacy. The college and the real, true pharmacists have not the necessary means. So if any millionaire has some suare change let him donate it to the College of Pharmacy of the city of New York, as a donation in that direction will be a blessing to the public at large.

Baths and Washhouses

To the Editor of The Evening World: I cannot think of any better way of of spending the million than establishing baths and washhouses. No one who has visited the tenement-house districts car doubt but that they would be an inestimable blessing. Washhouses similar to those estabtished in all the leading cities of England and the Continent would do away with much and the Continent would do away with much uncleanliness and discomfort. In London a poor woman can take her clothes to a public laundry and wash, iron and dry them at an expense of three cents an hour. Baths and washhouses have been successful, not only from a sanutary point of view, but a safe investment, and there can be no doubt that similar establishments would be equally successful in New York.

Several special trains are expected from Chicago and Cinclinnati and other points in Illinois and Oblo, besides a general outpouring of enthusiastic Republicans from various points in Indiada.

The procession will march through the principal streets of the city, and at about 9 o'clock will pass the residence of Gen. Harrison, where the President-elect will review the parade. DRIVEN TO BOOTBLACKING.

A Prominent Harlemite Humbled by the

Result of the Election. The spectacle of Benjamin B. Marco, a pro nent coal dealer in East One Hundred and Twenty-second street, polishing the shoes of S. H. Good-enough, the Cashier of the Consolidated Gas Company, at One Hundred and Fourteenth street and Third avenue, has left all Harlem in a state of hilarious excitement.

The two men are good friends and can get along with each other pretty well in everything except politics. On that topic they have not been able to a

politics. On that topic they have not been able to agree at all.

Mr. Marco is an enthusiastic Democrat, and before the election proclaimed locally that Cleveland would surely win the fight.

Mr. Goodenough, on the other hand, is a stanch Republican, and had such faith in his party's atrength that he agreed to polish Mr. Marco's boots if Harrison was not elected, on the condition that if Harrison proved victorious he wonds have the pleasure of seeing Mr. Marco humble himself in a reciprocal way.

Mr. Marco accepted the proposition, and Mr. L. R. Johnson, a real estate dealer, in East One Rundred and Sixteenth atreet, a mutual friend, was made referee.

dred and Sixteenth street, a mutual friend, was made referee.

The bootblacking was to take place on the corner of One Hundred and Sixteenth street and Third avenue, on the stand of an Italian bootblack.

At the appointed time for the loser to do he work, the men appeared and after Mr. Marco had quelled the Italian's objections with a fifty-cent piece, he began his job.

It was raining, and as Mr. Goodenough had not been particular to keep out of the mad, the task required great perseverance and muscular energy. But it was nocomplished before a crowd of people, who applanded Mr. Marco's efforts warmly.

Mr. Johnson threw a United States flag around Mr. Goodenough to shield him from the rain, and when the wager had been satisfied all hands went around the corner at Mr. Marco's expense.

Alten Pinlened Under an Overture [SPECIAL TO THE EVENING WORLD.]

Alton, an employee of "The Greatest Show," me with a severe accident at the inclosure of the Winter quarters. The wild animals are now being transferred from travelling cages into the temporary dens while the former are undergoing annual repairs.

BRIDGEPORT, Conn., Nov. 10. - Yesterday Georg

former are undergoing annual repairs.

A large cage wagon containing hyenas was backed up near the Menagerie building and the front wheels were cramped under, causing the heavy wagon to be easily thrown out of balance.

During the noon hoar, while most all of the employees were away, George Alton began foofing with the hyenas. The savage beasts suddenly made a rush towards him which overturned the cage, pinning Alton to the ground underneath.

William Newman, keeper of the elsphants, beard the peculiar tones of the laughing hyenas untered when attacking prey, and rushed out to find Alton under the cage and the hyenas savagely laughing, biting and tearing his clothes. Newman, unable to extracte Alton, hurried life elephants Gypsy and Juno out of the pen ordering them to lift the cage, which they did with their trunks.

Alton was fearfully out about the scalp, and Alton was fearfully cut about the scale, and was taken to Bridgeport Hospital where it was found his skull was cracked.

During the few moments of terror Alton was subjected to his hair turned from deep black to

BELD FOR STEALING CLOTHING. Charles White Asked Mrs. Pogg If She Had Missed Anything.

A colored servant named Charles White, lately employed at the house of William F. Fogs. West Twenty-second street, was held for trial is Jefferson Market Police Court this morning, charged with stealing \$100 worth of clothing. White left the place on the morning of Oct. Is before the family got up.

He called at the house a few days later and asked if Mrs. Fogg had missed any property. Said she had not.

That evening she received a postal card from Westchester telling that property of hers would be found in a certain pawnshop. She then discovered that a lot of clothing had been stolen, and Detective Carey, of the Sixteenth Precinct, arrested White.
